Lots of places!</p> <p>Many of the sizes are specific to the odd sizes that are needed in a particular grid, such as for a 12" x 7 block (Set L); see Volumes 1-4 of our <i>Encyclopedia of Patchwork Blocks</i>.</p> <p>Say you own just Set B and want a 3" x 6" Flying Geese unit to make Marti's Scrappy Flying Geese quilt. Naturally, we would be happy for you to buy the Flying Geese Ruler or Set A and have that exact size, BUT for that quilt the key is the units need to be the same size. So you could use pieces 9 and 11 in Set B to make units that are almost that size and cut a wider border or add strips between the rows.</p>
